LANDSCAPE ARCHITECTURE &
ENVIRONMENTAL CONSULTING

INTERNATIONAL LANDSCAPE DESIGN & SITE PLANNING CONSULTING

*Global experience. Local partnerships.
Thoughtful design for extraordinary places.*

I provide international landscape design and site planning consulting services for expatriates, property owners, developers, and project teams working outside the United States—particularly in regions with a strong U.S. and international expat presence.

My role is to help clients navigate unfamiliar regulations, different construction practices, and environmental conditions by providing clear, experience-based guidance during the early planning and concept stages of a project.

International projects.
Local knowledge.
Global perspective.

I work in an advisory, design-focused capacity—assisting with site organization, landscape strategy, grading and drainage intent, and environmental considerations—while coordinating with locally licensed architects, engineers, and consultants who remain responsible for permitting, approvals, and regulatory compliance.

TYPICAL INTERNATIONAL CONSULTING SERVICES INCLUDE

SITE FEASIBILITY & EARLY PLANNING ANALYSIS

Evaluate site potential, constraints, opportunities, and development options.

LANDSCAPE CONCEPT & MASTER PLANNING

Create conceptual layouts and comprehensive master plans aligned with project goals.

SITE ORGANIZATION, GRADING & DRAINAGE STRATEGY

Provide grading intent, drainage direction, and site organization for efficient performance.

ENVIRONMENTAL & LAND-USE SENSITIVITY GUIDANCE

Identify environmental considerations, preserve natural resources, and support sustainable development.

DESIGN REVIEW & OWNER-SIDE ADVISORY SERVICES

Review design, assess options, and provide owner-side guidance for decision-making.

COORDINATION SUPPORT

Assist with communication and coordination with local architects, engineers, and consultants throughout the project.

TYPES OF PROJECTS

RESIDENTIAL

RESORT & HOSPITALITY

MIXED-USE & COMMERCIAL

ENVIRONMENTALLY SENSITIVE PROJECTS

PROFESSIONAL SCOPE

International consulting services do not include local permitting, plan stamping, or acting as the professional of record.

All regulatory approvals and construction documentation are prepared and submitted by appropriately licensed professionals within the project jurisdiction.

This consulting model allows expatriate clients and international project teams to benefit from experienced, independent design and planning guidance while ensuring full compliance with local laws and professional requirements.

EXPERIENCE YOU CAN RELY ON—GUIDANCE YOU CAN TRUST

International Perspective
Experience working across cultures, climates, and regulatory environments.

Practical Solutions
Thoughtful, buildable strategies that respect site and place.

Collaborative Approach
Seamless coordination with local professionals and project teams.

Sustainable Outcomes
Designs that enhance value, protect resources, and endure over time.

*Great places.
Thoughtful design.
Global impact.*
