

LANDSCAPE ASSESSMENT & CONSULTING SERVICES

*Professional Landscape Opinion.
Experience. Insight. Solutions.*

Not every landscape problem requires a new design. Sometimes what is needed is an experienced professional to determine what happened, why it happened, and what can be done to correct it. I provide objective, on-site evaluations and practical recommendations to protect your investment and improve long-term landscape performance.

WHEN TO CALL

Declining Trees or Shrubs

Unexplained decline, defoliation, or poor growth.

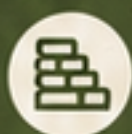

Drainage & Moisture Issues

Ponding, erosion, soggy soils, or dry stress.

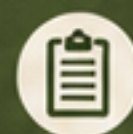

Planting Failures

New plantings not thriving or repeated losses.

Construction Concerns

Landscape or hardscape issues related to installation.

Due Diligence & Documentation

Pre-purchase, project reviews, disputes, or insurance.

Residential, Commercial, Institutional & Municipal

Stewarding landscapes with clarity and confidence.

WHAT I PROVIDE

- On-site evaluation of existing conditions
- Identification of probable causes of observed issues
- Documentation and photographs
- Practical, actionable recommendations
- Clear, professional written reports for planning, maintenance, legal, or insurance purposes
- Thoughtful solutions that protect your landscape investment

MY ASSESSMENT PROCESS

1

Site Visit & Observation

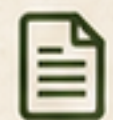

Careful inspection and documentation of existing conditions.

2

Evaluation & Analysis

Identify factors affecting plant health and site performance.

3

Findings & Professional Opinion

Clear explanation of probable causes based on experience and best practices.

4

Recommendations

Practical steps to correct issues and improve long-term success.

5

Ongoing Guidance (If Needed)

Continued support to monitor progress and refine solutions.

TREE DECLINE

Identify stress factors and improve conditions.

DRAINAGE ISSUES

Find the source, understand the impact, and recommend solutions.

PLANTING FAILURES

Determine why plants fail and how to prevent future losses.

CONSTRUCTION CONCERNS

Evaluate workmanship and conditions affecting landscape performance.

HEALTHY SOLUTIONS

Practical guidance for resilient, thriving landscapes.

WHY WORK WITH A LICENSED LANDSCAPE ARCHITECT?

A Landscape Architect looks at the entire landscape as a system—soil, water, plants, structures, and site conditions—to deliver solutions that are practical, defensible, and designed to last.

Design With Purpose.

THIRTY YEARS OF DESIGN, CONSTRUCTION, HORTICULTURE, AND REGULATORY EXPERIENCE APPLIED TO SOLVING LANDSCAPE PROBLEMS.
